- I enjoy the versatility of painting in many different techniques and styles from Contemporary to Old Masters. Every year I study with Master Painters in the US and in Europe, always expanding my artistic skills and offerings.
- Commissioned art is a favorite. It allows me, along with the client, to co-create the perfect piece for any given space, from murals to portraits.
- Bringing the passion of flowers to life is my inspiration. Flowers speak to me, from their highest expression, inviting me to create their beauty with oil, brush and board.
- At times my paintings and photographs call to me to continue onto their frames where their energy and bold colors flow out into your home or business environment.
- Original artwork as well as all sized limited edition giclees, on gallery wrapped canvas.

Bringing the Passion of Flowers to Life
